

# G.W. ENTERPRISES, INC.

**G.W. Enterprises, Inc.** provides superior IT Services to Fortune 1000 clients. From Staff Augmentation through Project Implementation, we help our clients successfully deploy mission-critical initiatives across the business continuum.

## STAFF AUGMENTATION

In today's deadline-driven and time-compressed project cycles, your ability to quickly augment your core IT staff with seasoned professionals can dramatically increase your competitive advantage. G.W. Enterprises utilizes an advanced recruiting solution, **powered by VersaTech**, to deliver the experts and skills you need, when you need them most.

## SOLUTION DEVELOPMENT

In seeking focus and value, companies often look beyond their organization for specialized assistance with rapidly changing information technologies. G.W. Enterprises can design and develop the complex solutions necessary to solve the challenges of today and tomorrow. Our expertise covers a wide range of the software spectrum, and we can custom-tailor a software solution to precisely meet the needs of your business.

## DEVELOPMENT PROCESS

A stable, robust software application requires much more than good, solid code. It requires a complete development process that ensures accurate foresight and comprehensive testing. Our process is comprised of seven phases.

*Our consultants specialize in a variety of skill categories including:*

Web Developers

Object-Oriented Programming

Client/Server Programming

Mainframe Programming

Database Administrators

Technical Support/Help Desk

Project Managers

Technical Writers

*Our capabilities include:*

Feasibility/Requirements Analysis

Platform Evaluation & Recommendation

System Study & Design

Software Application Development

Documentation

User Training

Post Implementation Support & Maintenance

*Phases of Development Process:*

- 1 System Requirements
- 2 Software Requirements
- 3 Preliminary Design
- 4 Detailed Design
- 5 Coding and Unit-Level Testing
- 6 Integration & System Testing
- 7 Operation & Maintenance

## ABOUT G.W. ENTERPRISES

Formed in 1994, G.W. Enterprises (GWE) has earned a solid reputation for delivering high quality, customer focused IT services to Fortune 1000 companies, including McGraw Hill and Merck. The firm's motto is: "We're people helping people." It is more than a slogan, it is the commitment to

Whitman, Greg Williams*

excellence. When providing services to clients, the emphasis is always placed on quality.

It's founder and CEO, Greg Williams, is a prominent leader within the minority business sector and has

been appointed to serve on several corporate and government committees.

## VERSATECH'S STRATEGIC SOURCING CENTER

The Strategic Sourcing Center is the only end-to-end staffing software solution that integrates data collection on the front end and candidate presentation on the back end, with a highly robust and category-leading data management tool. Through our strategic alliance with VersaTech Consulting, G.W. Enterprises delivers faster and more accurate fulfillment of client staff augmentation requirements.
